Phase 2 — Scaling team

Added once Phase 1 is delivering reliably and revenue supports the additional cost layer.

Paid Media Operator — base + commission

Where the rest lives

Exact pay figures per role, the profit model that funds these roles, and the founder equity split live in MASTER.md (private operating brain) and in the per-role docs under `MASTER/roles/`. Those documents are INTERNAL-ONLY and not part of this shareable reference.

Per-service delivery instructions remain in `/Users/omar/ai_agency/Instructions/` — one file per service, single source of truth. The per-role docs reference those instruction files but never duplicate them.

Why the old PDF is archived

`Archive/Costs & Services/Nova_Agency_Team_Roles.pdf` was generated before this Phase 1 / Phase 2 structure was defined. It is treated as stale. This `.md` doc plus MASTER.md are now the only authoritative reference. If anything in this doc contradicts MASTER.md, MASTER.md wins.
