PART 4 — Hiring Roadmap

When to hire each role, in order. Never hire ahead of revenue. Commission-based workers are always safe to bring on early — they only cost money when they generate it.

Hire	Role	When to Hire	Pay Model
#1	Account Manager	First paying client onboarded	4% of client MRR they manage
#2	Content Manager	3+ clients on social media plans	4% of client MRR they manage
#3	Video Editor	5+ clients needing video content	Per-video rate or 4% commission
#4	Ads Manager	First Growth tier client signed	4% of client MRR they manage

#9	Head of Performance Marketing	30+ clients, 5+ ad clients	Salary + performance bonus
#10	Head of Tech (reports to Omar)	Stage 3, Omar building bigger systems	Salary

Rule: Every hire should be funded by existing client MRR before they start. Never take on salary costs that are not already covered by recurring revenue.
